

COVER-ALL

## Managed IT A Powerful Growth Strategy

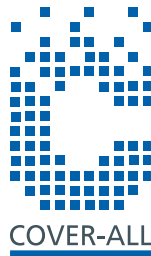

Outsourcing was once equated primarily to cost savings. Today, it's recognized as a powerful growth strategy. When you outsource part or all of your IT to Cover-All, you focus on what you do best, and Cover-All's best-of-breed service manages your IT needs to complement your business needs.

- ➔ Maximize your return on investment by directing your human resources to serve your customers
- ➔ Increase your flexibility to adapt to the changing needs of your business with our expertise
- ➔ Create a competitive advantage with dynamic IT systems that help you work proactively, not reactively
- ➔ Count on our reliable and experienced staff

Today, it's very difficult for most companies to keep hardware running smoothly and always up-to-date without large capital outlays and ongoing maintenance. When you outsource with Cover-All, you can reduce and streamline both your capital needs, and your operating expenses for hardware, and maintenance of your computer systems.

## Managed IT A Powerful Growth Strategy

Cover-All owns and maintains a temperature-controlled, secure data centre with uninterruptible power supplies (UPS), and a back-up diesel generator. Professional staff manages the data centre at all times, so you can rest easy that your data is safe and secure at all times.

As a client of Cover-All, you can look forward to working with an experienced team of people who are here to serve you 24/7. Across all servers and mainframes, operating systems and complex networks, our staff is up-to-speed. Just ask our clients in; e-commerce, manufacturing, insurance, software, retail, distribution, and financial services - we listen to our customer's needs and tailor our programs and services to each one's needs.

We also understand the importance of a smooth transition. So if you're considering moving to managed IT, we can help you make it a positive experience for all your staff.

### Cover-All Experience

Since 1966, Cover-All has built a wealth of experience in successfully migrating and providing steady state services to many, many clients. Cover-All is a proven leader in the supply of highly IT Managed computing with superior professional capability and service delivery. Cover-All serves many significant organizations including: Lombard Canada, Petro-Canada, Elk Valley Coal (Fording Coal Partnership), Canadian Institute For Hospital Information (CIHI), Farm Business Consultants and the Canadian Automobile Association (CAA).
