

## Document Services Transactional Processing & Printing

### Secure and Efficient

At Cover-All we provide efficient, secure, digital print and mail services for businesses with transactional processing needs. Every day, we process, print and mail clear, accurate and comprehensive documents such as: account statements, daily trade confirmations, cycled utility bills and pay advises.

Our ongoing investments in technology and security have helped us become a leading provider to transactional industry sectors such as: retail, financial services, insurance and other fulfillment businesses.

We can streamline and coordinate mailings for year-end tax forms for both employees and customers. This can include electronic filing to meet critical government deadlines. We process data daily for customers to produce personalized and customized high quality and timely statements and other critical business documents such as investment confirmations. Our data services help customers optimize their '1 to 1' marketing communications with digital full colour and black laser printing. We have capacity to produce millions of pages per day.

Cover-All account managers are knowledgeable in transactional processing and work closely with our production team to bring our clients flexible solutions that answer immediate needs and help improve business efficiency. Our high level of professionalism and dedication to creative solutions and timely and accurate results is what truly separates Cover-All from our competitors.
